Summary

I have been working as a JavaScript Developer for the past three years and have gained a wealth of experience in the field. I am an expert in using **JavaScript**, **React**, **Selenium**, **Node.js**, and **HTML/CSS**. I am also familiar with **GitHub**, **SQL** and **Scrum/Agile** methodologies. My skills have allowed me to work on a variety of projects, including web applications, single-page applications, and **Selenium** test Automation.

Projects

- I am currently part of a project where I am working as a **Front-end** and **Test engineer**.
- Creating single-page web applications using **React JS**.
- Automation of web user interface testing using **Selenium** and **JavaScript (Node.js)**.
- Automation of API testing using **Selenium** and **JavaScript (Node.js)**.
- Manual API testing using **Postman** on several publicly available API.

Work Experience

- 2020 - 2021 Updating content on Wordpress sites (**Freelance**).
- 2001 - 2019 Government of the Republic of Serbia, Belgrade.
